## PROFESSIONAL SUMMARY

Software Development Engineer with 2.9 years of experience in building scalable applications, AI-driven systems, and backend services. Skilled in API integrations, full-stack development, and chatbot/NLQ validation. Proven ability to deliver reliable, user-focused products, streamline development workflows, and translate complex requirements into practical, high-impact solutions.

## PROFESSIONAL EXPERIENCE

### Software Development Engineer, ApexaiQ Technologies 📄

*Full Stack Developer (MEVN)* Nov 2024 – Present

- Built and maintained scalable web applications using Vue.js, Node.js, Express, MongoDB, and PostgreSQL
- Delivered customer-driven features, improving application usability and performance
- Resolved production issues and optimized frontend/backend performance for growing scale

*AI QA Engineer – Chatbot & NLQ* May 2025 – Feb 2026

- Improved chatbot accuracy by building optimized Lucene queries across AWS, GCP, Azure, and CrowdStrike integrations
- Led end-to-end validation of NLP-to-query systems, ensuring reliable prompt and response behavior
- Developed scalable testing frameworks, prompt libraries, and datasets for regression and security validation
- Enhanced AI quality through structured tagging, bug tracking, and cross-environment validation

*Python Developer – API Integrations* Nov 2023 – Present

- Engineered and maintained integrations across platforms including RiskSense, Defender, Tanium, Cycognito, Vectra AI, and Kubernetes
- Built reusable API wrappers to standardize data ingestion and improve integration efficiency
- Improved performance and reliability of existing integrations (e.g., Infoblox)
- Mentored 4 developers, accelerating onboarding and team productivity

*Lead Engineer – Audit Ready Project* Aug 2024 – Oct 2024

- Delivered \$20K+ impact by automating compliance and data processing workflows
- Eliminated 600+ duplicate records, improving data quality and integrity
- Built 23 automation rules and structured asset tagging for 2,500+ devices
- Identified 640+ non-compliant assets, strengthening audit readiness

*Customer Support & Success Executive* Oct 2023 – Present

- Managed 500+ support tickets, ensuring timely resolution and high customer satisfaction
- Collaborated with customers to gather requirements and authored 150+ knowledge base articles
- Led a team of 4 developers while supporting high-value clients under tight timelines
- Created legal and technical documentation to streamline onboarding and compliance

## EDUCATION

**Bachelor of Technology in Electronics and Telecommunication Engineering,** 08/2019 – 06/2023  
Shri Sant Gajanan Maharaj College of Engineering, Shegaon India

## TECHNICAL SKILLS

**Languages** (Python, TypeScript, JavaScript, Vue) • **Frontend** (Next.js, Tailwind CSS, Shadcn UI) • **AI/LLMs** (Google Gemini, OpenAI, Ollama, Codex, Hugging Face) • **Frameworks** (LangGraph, LangChain) • **Databases** (MongoDB, QdrantDB, Neo4j) • **Backend & APIs** (FastAPI, Node.js, PostgreSQL, Redis, Pydantic)

## ACHIEVEMENTS

**Apexa iQ® Kudos Award Q3 2025** 📄, ApexaiQ Technologies

## PROJECTS

**AdminOps Administration Management System,** FastAPI, React, Redux Toolkit, Tailwind, Docker

- Developed a full-stack AMS with multi-tenant architecture, RBAC, and secure authentication using FastAPI and React.
- Built scalable backend features including dynamic forms, audit logging, Celery tasks, metrics (Prometheus), and Alembic migrations.
- Implemented a responsive frontend with form builder, request/approval workflows, and organization/user management using Redux Toolkit.
- Containerized and productionized the system using Docker Compose and CI-ready setup, ensuring scalability and maintainability.

**HPersona - AI Persona Chat Application** 📄, Next.js, React, TypeScript, Tailwind CSS, Gemini API

- Built HPersona, an AI-powered web app enabling real-time conversations with tech educator personas using personalized prompting and configurable AI settings.
- Integrated ChatGPT API with secure backend handling, fallback logic, and designed a responsive, interactive chat UI for seamless user experience.

**Personal Portfolio Website** 📄, Next.js, React, TypeScript, Tailwind CSS, Framer Motion

- Designed and developed a responsive personal portfolio website with a modern UI to showcase projects, skills, and experience.
- Built reusable components, smooth animations, and optimized performance for accessibility and seamless cross-device user experience.

## CERTIFICATES

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate 📄
- Product-Led Fundamentals certification by ProductLed 📄
- The Orchestrator by personality assessment from Ray Dalio 📄
